Pure Planet Flea Shampoo and Ear Mite Lotion kills fleas, ticks, bed bugs, and ear mites on contact with safe, natural ingredients that are better for the environment, you and your pets. Our tested and proven blend of botanical oils and ingredients work to quickly eliminate insects so your pet stays happy and pest-free. A deep-cleansing and conditioning shampoo base helps to make the coat shiny while working deep into the skin to remove dander and scaling associated with flea bites. Even if there are no pests present, professionals and pet owners can trust this shampoo and lotion as a great general-use shampoo. **Pure Planet Flea Shampoo and Ear Mite Lotion** is proven to kill fleas, ticks, bed bugs and ear mite without dangerous chemicals. This natural formula is fragrance-free. It may be used in conjunction with spot-on treatments and is safe for dogs, puppies and cats.

Precautionary Statement: Keep out of reach of children. Avoid contact with eyes, skin or clothing. If in eyes, flush with water for at least 15 minutes. If on skin, wash with plenty of soap and water. Get medical attention if irritation persists. Do not apply this product undiluted. Do not apply to water.

DIRECTIONS FOR USE

As a Shampoo: Wet coat thoroughly with warm water. Apply adequate amount of shampoo to head and ears, then lather. Do not get shampoo into the eyes or nose. Repeat procedure with neck, chest, middle and hindquarter, finishing with legs. Be sure to include areas where pests hide, such as between the paws. Allow shampoo to be absorbed for 5 to 10 minutes then rinse thoroughly.

For Ear Mites: Do not apply treatment directly onto broken skin, in open wounds, or in eyes. To control ear mites, apply only enough product to thoroughly coat the inner surface of the ear canal. Gently massage the base of the ear to fully distribute the treatment to all areas. Allow the pet to shake its head. Wipe excess solution from the ear. Repeat every 2 days until the condition has improved, or as directed by a veterinarian. Do not use longer than 14 days without consulting your veterinarian. As a preventative treatment, apply every 15 days to prevent ear mite infestation. Sensitivities may occur after using any pesticide product for pets. If any signs of sensitivity occur, consult a veterinarian immediately.

STORAGE AND DISPOSAL:

Do NOT transfer product to any other vessel (only store in original container). Store in original container in a cool, dry area and avoid direct sun and excess heat. Keep from freezing. Do NOT reuse container. Place in trash when empty.

LIMITATION OF LIABILITY:

To the extent consistent with applicable laws, Davis Manufacturing & Packaging, Inc. makes no warranties or merchantability of fitness for a particular use, nor any other express or implied warranty except as stated above. Buyer assumes all responsibility for safety and use not in accordance with the label, directions, and precautionary statements.
