Lower cost than Pyrethrum-containing products

Contains no Pyrethrum, Sodium Lauryl Sulfate or synthetic chemicals

No supply chain problems like with Pyrethrum-containing products

Proven Contact Kill of bed bugs, fleas, mites and ticks

Kills adult and larvae stages of fleas

No Known Resistance

Works on Resistant Species

DIRECTIONS FOR USE

Read entire label prior to use and use product as directed. Shake well before use or dilution. To minimize foaming, add water to spray tank first; then add this concentrate. **For severe infestations** dilute 1 part concentrate {or use product name} to 9 parts water. **For maintenance treatments** dilute 1 part concentrate {or use product name} in up to 39 parts water. For use in pump-up and trigger sprayers.

For Use on Dogs: Hold the spray nozzle approximately 8-12 inches from the dog. Start by spraying at the tail and work toward the torso. Treat the dog's entire coat including legs, tail and underbody, fluffing the hair backwards to help the spray penetrate through the coat down to the skin. Do not spray on open wounds, abrasions, genitalia, face or in eyes or mouth. Do not use on dogs under 12 weeks old. Repeat as necessary to control infestation. Pets may be treated indoors or outdoors. To help reduce the occurrence of fleas and ticks, year-round use of this product is recommended.

Carriers, bedding, kennels and toys: Spray surfaces until wet from a distance of 6-8 inches. Allow to air dry or wipe dry with a cloth or paper towel. If bedding can be washed, add 1-2 capfuls of this product to your normal laundry detergent. Use the highest heat possible. Dry normally, adding 30 minutes to time.

For Ear Mites: Apply 1/2 ounce per ear. Reapply 2 and 4 days after initial treatment. Eradicates ear mites and significantly reduces crust within one week after initial application.

PRECAUTIONARY STATEMENTS

WARNING: Causes serious eye irritation. May cause allergic skin reaction.

Prevention: Thoroughly wash face, hands and any exposed skin after handling. Wear protective gloves/clothing and eye/face protection. Avoid breathing mist/vapors/spray.

Response: If in Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing if eye irritation persists. Get medical advice/attention. **If on Skin:** Wash with plenty of soap and water. If irritation or rash occurs, get medical advice/attention. Wash contaminated clothing before reuse. If irritation persists, call a physician or 1-800-222-1222 for emergency medical treatment information.

Storage and Disposal: Keep away from children and pets. Store in original, tightly closed container in a cool, dry area. Non-refillable container; do not reuse or refill this container. Recycle empty container, or discard in trash.
