Total 100.00%

*Distilled Water, Soap, Glycerin, Myristic Acid, Potassium Oleate and Potassium

Stearate

(Note: The Ingredients Statement maybe on the front or back panel; it must, however, be presented in this format.)

Net Contents: _____ fl oz (____ mL)

Select from the following Marketing Claims:

May also be used on edible plants

For use on all types of plants

Proven effective by contact against plant pests such as aphids, armyworms, beetles, loopers and whiteflies

Lower cost than Pyrethrum-containing products and other natural formulas

No supply chain problems like with Pyrethrum-containing products

Quick Kill Formula against aphids and whiteflies

Contains no Pyrethrum, Sodium Lauryl Sulfate or synthetic chemicals

No Known Resistance

Works on Resistant Species

DIRECTIONS FOR USE

Read entire label prior to use and use product as directed. Shake well before use or dilution. Spray surfaces to be treated from a distance of 6-8 inches, directly spraying listed pests. Use 2-4 trigger sprayer pumps, depending upon pest pressure, and thoroughly wet listed pests, but not to the point of saturation/runoff.

Some plants, particularly very small seedlings and some sensitive plant species can be damaged by the ingredients in this product. Be sure to test a few leaves 2-3 days before spraying the entire plant. Do not use on plant if leaf burn or spotting is noticeable. Do not spray newly developing blooms, buds or seedlings. For minimal leaf burn, apply product when it is cooler (mornings and evenings) and avoid applying during hot (above 90°F) days. For best results, apply product to pests as soon as you are aware of them to catch the population early in the season. Hold spray nozzle 6-8 inches from the target surface. Thoroughly apply the product to both upper and lower leaf surfaces, stems and branches until uniformly wet, but not to the point of runoff. Harder to control pests may require additional treatments. Repeat as necessary.

PRECAUTIONARY STATEMENTS

WARNING: May cause allergic skin reaction.

Prevention: Avoid breathing mist/vapors/spray. Wear protective gloves.

Response: If on Skin: Wash with plenty of soap and water. If irritation or rash occurs, get medical advice/attention. Wash contaminated clothing before reuse. If irritation persists, call a physician or 1-800-222-1222 for emergency medical treatment information.

Storage and Disposal: Keep away from children and pets. Store in original, tightly closed container in a cool, dry area. Non-refillable container; do not reuse or refill this container. Recycle empty container, or discard in trash.
