No supply chain problems like with Pyrethrum-containing products

Proven Contact Kill of bed bugs, fleas, mites and ticks

Kills Adult and Larvae stages of Fleas

Safe for use around dogs, cats and other furred pets

No Known Resistance

Works on Resistant Species

DIRECTIONS FOR USE

Read entire label prior to use and use product as directed. Shake well before use or dilution. Spray surfaces to be treated from a distance of 8-12 inches, directly spraying listed pests. Use 2-4 trigger sprayer pumps, depending upon pest pressure, and thoroughly wet listed pests, but not to the point of saturation/runoff.

Throw away all unneeded items and organize remaining items to limit bed bug hiding spots. Thoroughly vacuum furniture, flooring, bedframes, mattresses, box springs, baseboards, curtains and any other reachable areas. For suitable fabrics, clean all bedding, clothes, curtains, dressings, sheets, pillowcases, pillows, bed skirting and other washables. Separate cleaned items from uncleaned items. If possible, steam fabric and furniture that cannot be washed or dry-cleaned. Seal vacuum bag contents and immediately remove from the dwelling.

Adjust nozzle to 'spray' and apply product to wet any bed bugs that are visible, such as along all tufts and edges of mattresses and box springs. Use the 'stream' setting to treat any cracks and crevices around areas where bed bugs have been seen. Properly treat all beds in the dwelling, including pet beds and pet resting areas, nearby cracks/crevices and baseboards. Do not come in contact with or use treated articles until spray has completely dried. It may be

beneficial to either cover the mattress and box springs with a bed bug blocking encasement immediately after treatment dries, or replace the mattresses and box springs. Simultaneously wash/dry-clean or replace all sheets, bedding and clothing suspected of being harboring bed bugs. Treat wall voids, where feasible, with a dust product labeled for killing bed bugs, particularly if the walls are joined with other dwellings. When traveling, isolate and treat the luggage before bringing into the dwelling.

PRECAUTIONARY STATEMENTS

WARNING: May cause allergic skin reaction.

Prevention: Avoid breathing mist/vapors/spray. Wear protective gloves.

Response: If on Skin: Wash with plenty of soap and water. If irritation or rash occurs, get medical advice/attention. Wash contaminated clothing before reuse. If irritation persists, call a physician or 1-800-222-1222 for emergency medical treatment information.

Storage and Disposal: Keep away from children and pets. Store in original, tightly closed container in a cool, dry area. Non-refillable container; do not reuse or refill this container. Recycle empty container, or discard in trash.
